SUMMARY

Dedicated software developer experienced in Machine Learning, neural networks, and full-stack development. Proficient in C++, C, and Java. Strong problem-solving, communication, and collaboration skills. Eager to contribute to a talented team.

PROJECTS

Sample Movie Booking Catalog

May 2023 - May 2023

- Processed data provided through TVmaze's API.
- Created a front-end application for the data including an interface for details, and a form.
- Implemented TailwindCSS utilities to maximize efficiency while designing.
- Used vite as the package bundler and deployed using vercel as PaaS.

Top 10 Space News Fetcher

May 2023 - May 2023

- Built a frontend to fetch and display the top 10 news using space news's public API.
- Hosted on Vercel and bundled using Vite.
- Used React.js and TailwindCSS to create the client side rendered page.

Goals List

April 2023 - April 2023

- Created a Todo-list application as practice while learning React.
- Maximized usability by storing data on local storage.
- Implemented TailwindCSS utilities while designing.
- Bundled using vite and deployed using vercel as PaaS.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Manipal University Jaipur • Jaipur, Rajasthan • 2026 • 9.93

AISSCE

Loyola High School • Patna, Bihar • 2021 • 91.4%

AISCE

Loyola High School • Patna, Bihar • 2019 • 96.2%

CERTIFICATIONS

Advanced React Concepts

Codedamn

Learnt React.js which involved but is not limited to the project structure, DOM manipulation, State management, basic and advanced hooks and data fetching.

Machine Learning Specialization

Coursera • 2023

Gained an understanding of the foundational concepts of machine learning through a 3 course specialization.

Frontend Certification Exam Certificate

Codedamn • 2023

Certified in the relevant techniques and concepts involved during the development of frontend React.js applications.

Neural Networks and Deep Learning

Coursera • 2023

Learned the in-depth workings of neural networks without using any deep learning framework.

INVOLVEMENT

Event Coordinator

Manipal University Jaipur • Randomize(); MUJ • February 2023 - May 2023

- Involved in the ideation and logistical implementations of technical events.
- Managed a team of 5 people tasked with data collection and filtering for potential sponsorships.

- Managed a team of 18 people tasked with the promotions and management of 2 technical sessions.

SKILLS

ML: Python, TensorFlow, Jupyter, Neural Networks.

Frontend: HTML, CSS, JavaScript, Tailwind CSS, React.js, Redux.

Backend: Node.js, Express.js, MongoDB.

Core: C, C++, Java, DSA.

Misc: Git, Linux, GitHub, Vercel, Chrome dev tools.

Soft skills: Problem Solving, Public speaking, leadership, teamwork, people management.
